### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art of record teaches the use of a carbon liquid in order to assist in forming the desired carbon nanotube or carbon fullerene products. The prior art of record teaches the injection of the carbon liquid into the arc. The prior art of record does not teach the introduction of the carbon liquid into the arc chamber while the chamber is under vacuum conditions and before the arc is generated, wherein the carbon liquid helps to raise the pressure from vacuum to the desired reaction pressure. Nor is there a suggestion or motivation in the prior art to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
